

Gemeinsames Kolloquium Interdisciplinary Lecture Series Wintersemester 2018/19

<p>15.11.2018, 17 Uhr c.t., HNC 30 Prof. Dr. Thomas Braun Dept. of Chemistry, Humboldt-University Berlin, Germany</p>	<p><i>Activation of Fluorinated Molecules at Metal Centers: From Model Reactions to Catalysis</i></p>
<p>29.11.2018, 17 Uhr, c.t., HNC 30 Prof. Dr. John A. Gladysz Dept. of Chemistry, Texas A&M University, College Station, USA</p>	<p><i>Werner Complexes: A New Class of Chiral Hydrogen Bond Donor Catalysts for Enantioselective Organic Reactions</i></p>
<p>10.01.2019, 17 Uhr, c.t., HNC 30 Priv.Do. Dr. Florian Beuerle Institut für Organische Chemie & Center for Nanosystems Chemistry Universität Würzburg, Germany</p>	<p>In Cooperation with the GRK-2376 Confinement-Controlled Chemistry <i>Design and Synthesis of Complex Molecular Architectures through Subcomponent Self-Assembly</i></p>
<p>24.01.2019, 17 Uhr, c.t., HNC 30 Prof. Dr. Manuel Alcarazo Inst of Organic and Biomolecular Chemistry, Asymmetric Homogeneous Catalysis, Universität Göttingen, Germany</p>	<p><i>α-Cationic Phosphines, Arsines and Sulfides: Synthesis and Applications</i></p>

Gäste sind herzlich willkommen – Guests are most welcome!
