

Microbial Genetics

New lecture in Summer 2017 for **M. Sc. students**
in **Biochemistry** and **Chemistry**
open for graduate students

First lecture: **April 26th, 11 a.m., NC 2/99**

Content: Advanced genetics of microbes (bacteria, phages, fungi) with an emphasis on modern biotechnology.
The lecture will include background information on the microbes that will be discussed to refresh your knowledge in microbiology.

Prof. Dr. Frank Schulz

NC3/171
